

Flávio Ferreira

Programmer

Versatile and self-taught programmer with interests in new technologies and game development. While studying, I learnt a new programming language (ActionScript3) and developed a game in just one day.

Experience

- 2021-05 - **Programmer**
2022-07 *Reckless Company, Andorra*
- Automatic card generator for **Gameface** and **Yrbk**.
 - Developed hybrid ([Android and iOS](#)) apps, using [Flutter](#), for collecting and purchasing sports (**Gameface**) or school (**Yrbk**) trading cards.
 - **WIX** web hook integration for **Gameface** and **Yrbk's** database.
 - Database ([PostgreSQL](#)), server ([NodeJS](#)) and dashboard ([EJS](#)) development for **Gameface** and **Yrbk**.
 - Developed a hybrid ([Android and iOS](#)) app, using [Cordova](#), for sports management (**ProTeam**), with push notifications, calendar, chat, file sharing and posts..
 - Database ([PostgreSQL](#)) and server ([NodeJS](#)) development for **ProTeam**.

Internships

- 2017-05 **Computer Programmer**
- 2017-08 *M7IP, Porto*
- Investigation and implementation of [Web](#) code for mobile platforms, [Android and iOS](#), using [Phonegap](#); with login via Gmail, Facebook or register, push notifications and Google Maps integration.
 - Bug fixing off a mobile app written in [Java](#).
- 2016-06 **Database Developer**
- 2016-07 *Direção Regional da Cultura do Norte, Porto*
- Development of a Database ([MS Access](#)) with graphical interface.
 - Automatic emails, with all relevant information, for when an item's state is changed to "not working".

Education

Curso EFA, 12º
